SR260 SRVO Strength Trainer

All-In-One Smart Home Gym

Shown with optional bench

Introducing the game-changing SOLE SRVO Strength Trainer - Your Ultimate Home Workout Solution! The SRVO provides up to 264 lbs of digital resistance, 150+ exercises and workouts, plus dynamic training modes to allow you to be your best. Transform your fitness routine with the ground-breaking SOLE SRVO Strength Trainer.

Elevate your home gym experience with the sleek, compact, and easily transportable SRVO Strength Trainer - redefine your workouts today!

SRVO Strength Trainer

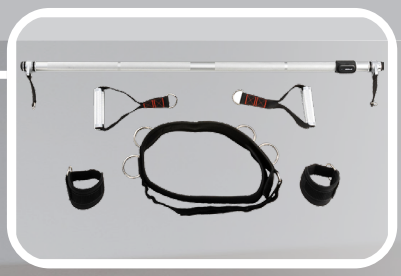

- Max generating weight of 264 lb (132 lb per side)
- Featuring dual commercial-grade servomotors using a proprietary strength algorithm delivering consistent and accurate digital weight
- Choose from three dynamic training modes:
 - **Standard Mode:** Consistent resistance throughout the exercise routine
 - **Eccentric Mode:** Resistance is greater during the lowering phase, stimulating muscle hypertrophy
 - **Isokinetic Mode (slow/fast):** Auto-adjusting resistance maintains consistent pulling speed to achieve full muscle activation.
- Pair with the SOLE+ app to track progress and access over 150 exercises and workouts
- Multiple integrated safety features to keep you progressing toward your goals
- Compact design for easy storage
