Club-Level Performance. Built for the Home.

The SOLE S77 Treadmill delivers the uncompromising power and stability of a commercial-grade unit, engineered for heavy-duty home training without sacrificing performance. Fitted with a 4.0 horsepower motor, the S77 also features a large 22" x 60" (56 x 152 cm) running deck and is built to support users up to 400 lb (181 kg) with ease.

The low-maintenance cushioned deck minimizes joint stress and impact, while 15 levels of incline allow you to target muscle groups and elevate your cardiovascular training. In Heart Rate Training mode, the treadmill automatically adjusts incline to keep you within your target heart zone with the use of the contact hand pulse sensors, and the included wireless chest strap delivers 99.9% accuracy for real-time heart rate tracking.

The upgraded 10.1" LCD touchscreen features screen mirroring capabilities, so you can display content directly from your smart device to the console. Stay connected with seamless Bluetooth integration to the SOLE+ app, and enjoy compatibility with Zwift, Kinomap, Garmin, and more, giving users immersive access to global routes and virtual running communities.

With 16 built-in and 12 custom workout programs, the S77 adapts to every fitness goal, from performance and endurance to fat burning and heart rate optimization.

The SOLE S77 brings high-capacity performance, connected technology, and precision tracking together, making it the perfect choice for serious runners who want the best of commercial features in a non-folding home unit.

S77 22" x 60" TREADMILL
