B94

Your Ultimate Home Fitness Solution

Redefining home cardio, the SOLE B94 Upright Bike delivers smooth performance, compact design, and total workout customization, ideal for anyone looking to elevate their fitness at home without compromising space. Lightweight yet rock-solid, the B94 is engineered for comfort, ease of use, and long-term durability.

With a 20 lb (9 kg) flywheel and 20 levels of magnetic resistance provide a fluid, quiet ride the B94 has scalable intensity to suit any fitness level. Strategically positioned hand pulse sensors provide fast, accurate heart rate readings, while built-in Bluetooth and 5kHz compatibility cater to data-driven users by allowing effortless pairing with a chest belt and advanced monitoring devices. The oversized gel seat, features 12 vertical positions and fore/aft adjustment, ensures proper riding posture and long-session comfort, making it the perfect solution for users of all sizes.

The vibrant 9" backlit LCD display offers real-time feedback and intuitive program selection, including 2 user-defined options and 8 pre-set routines for everything from hill climbs to heart rate control. Oversized, articulating pedals with a 2° inward slope and adjustable straps enhance alignment and reduce joint strain.

Stay connected and entertained with Bluetooth 3.0 speakers, a built-in tablet holder, and a USB charging port. The B94 console integrates seamlessly into your smart routine, letting you stream media, follow workouts, or listen to your favorite music while you train.

Designed to accommodate a max user weight of 300 lb (136 kg) and combined with SOLE's trusted lifetime warranty on the frame, the B94 is a dependable upright bike built for daily performance and lasting comfort.
