Streamlined Performance. Total Connectivity. Full-Body Results.

Elevate your training with the SOLE E25 Elliptical, a performance-driven machine engineered for smooth motion, smart connectivity, and total-body conditioning. Stay dialed into your performance with Bluetooth and 5 kHz heart rate monitor compatibility while 8 pre-set and 2 custom user programs provide users with multiple workout options.

With a 7.5" white backlit LCD display, integrated tablet holder, Bluetooth speakers and USB charging port, the E25 keeps your entertainment and apps within reach throughout every session. Seamlessly connect via Bluetooth FTMS to the SOLE+ app or third-party platforms like Zwift and Kinomap for immersive, interactive training experiences.

Powered by a 20 lb (9 kg) flywheel and offering 20 levels of magnetic resistance and incline, the E25 delivers a smooth, fluid stride that challenges every muscle group. Engineered for bio-mechanical precision, it features a generous 20" (51 cm) stride length and oversized, articulating pedals with a 2° inward slope to reduce ankle and knee strain, ensuring comfort through extended sessions. Integrated resistance and incline controls built into the multi-grip handlebars allow for on-the-fly adjustments without breaking stride.

The SOLE E25 brings precision, comfort, and connectivity together, designed to support long-term results and keep you fully engaged from warm-up to cool down.

E⁺ 5 20" ELLIPTICAL

- 7.5" white backlit LCD display with tablet holder & USB charging
- 20 lb (9 kg) flywheel plus 20 levels of magnetic resistance for adjustable training intensity
