

# SSM120

## SMITH MACHINE

### Complete Home Gym Setup

#### Total Strength, Built-In Safety, All-in-One Versatility

The SOLE SSM120 Smith Machine delivers a complete strength training solution in one compact, multi-functional unit. Featuring a 17.6 lb (8 kg) knurled Smith-style bar with 11 safety-stop levels, users can perform controlled squats, presses, and lunges with the added stability and safety of a guided bar path, ideal for solo training at home. The two integrated barbell plate storage horns keep your space organized and plates easily accessible.

Designed for maximum versatility, the SSM120 includes a dual independent motion pulley system for cable-based exercises like rows, curls, and lateral raises, while the centre pulldown and row/curl attachment points allow seamless transitions between upper and lower body movements. Knurled lat pull-down and short straight bar accessories expand your training options, making this machine suitable for full-body workouts targeting strength, power, and muscular endurance. Additional features like multi-position pull-up grips, anti-slip foot pedals, and detachable elbow support brackets for dips and leg raises round out this powerhouse setup. With a 68" (173 cm) bar and robust build quality, the SSM120 is engineered for progressive overload, functional training, and safe lifting making it the perfect centerpiece for any serious home gym.
