Flagship Power. Premium Tech. Elite Experience.

The SOLE F85 Treadmill is the crown jewel of SOLE's folding treadmill lineup, engineered for serious runners and performance-driven users who demand commercial-grade features in a foldable, space-saving design. With a robust 4.0 HP motor, the F85 powers speeds up to 12 mph (22 kph), 15 levels of incline, and an impressive 6 levels of decline for true terrain simulation and unmatched intensity.

At the center of the experience is the oversized 15.6" touchscreen console, featuring pre-loaded apps, built-in fitness videos, screen mirroring, and a wireless charging dock to keep your smart device powered while training. The Cushion Flex Whisper Deck reduces impact making it ideal for high-frequency use with less stress on joints.

With 12 template, 1 custom, and 17 pre-set programs, along with multiple user profile support, and Garmin wearable compatibility, users can personalize every run, track their performance, and connect to their preferred training tools. Direct speed, incline, and decline toggles provide rapid control adjustments, while the folding frame with locking system maximizes space when the treadmill is not in use.

The SOLE F85 sets the bar for high-performance home cardio, merging raw power, advanced connectivity, and user-focused design for a truly elite treadmill experience.

F85 22" × 60" TREADMILL

- 15.6" touchscreen console with pre-loaded apps, fitness videos & screen mirroring
- 4.0 HP motor with top speed of 12 mph (22 kph), 15 incline & 6 decline levels
