

TT8 22" x 60" 4.0HP DECLINE TREADMILL

Item #
16008900880

Every Workout Matters

SOLE+ DATA EXPORTS TO

Commercial Strength. Outdoor Realism. Home Convenience.

The SOLE TT8 Treadmill delivers commercial-grade durability and performance, engineered for serious runners, high-frequency users, and anyone demanding top-tier construction and versatility in a home environment. Built on a reinforced all-steel frame and featuring a generous 56 cm (22") wide running surface, the TT8 supports users up to 400 lb (181 kg) with unwavering stability, even under intense training conditions.

What sets the TT8 apart is its full-terrain simulation, offering 15 levels of incline and 6 levels of decline to closely replicate outdoor running dynamics. This variable terrain capability engages more muscle groups and enhances training variety, while the low-maintenance cushioned deck minimizes joint impact for a smoother, more natural stride.

Integrated hand pulse sensors provide quick, convenient heart rate tracking, while Bluetooth and 5 kHz chest strap compatibility enable wireless heart rate monitoring for precision-focused training. The TT8 is equipped with 9 pre-set and 1 custom program, with direct-access speed, incline, and decline buttons that let you shift gears instantly without breaking stride.

Stay powered and entertained with Bluetooth 3.0 audio speakers, a USB charging port, and an integrated tablet holder, keeping your smart device secure and your workout energized.

The SOLE TT8 brings elite performance, intelligent heart rate tracking, and terrain-adaptive functionality, delivering a true commercial treadmill experience right at home.

TT8 22" x 60" TREADMILL

- 22" (56 cm) wide running surface for enhanced comfort and space
- 15 incline levels plus 6 decline levels for true outdoor simulation
